We reserve the right, unless specifically stated otherwise, to use film footage for promotional purposes.

Our Commitment To You

We use broadcast quality digital cameras and professional editing software to provide you with a high quality product. Where possible we will use two cameras to capture the shots others miss. Powerful lenses allow us to keep a discreet distance while still capturing those essential close ups. We now exclusively use the DVD format to ensure a better quality production. We never forget that your Wedding is your day and we will endeavour to provide you with what you want, not what we want. We are happy to include photos, provided by our clients (max 25), on the final production at no additional cost.

We thank you for your enquiry and look forward to receiving your confirmed booking.
